MA in PSYC – DESCRIPTION

The mission of the MA in Psychology with an emphasis in Counseling Psychology program is to provide its participants with the knowledge and skills necessary to become competent in counseling psychology through academic and experiential learning. The program aims at educating future psychologists who have sound knowledge of the theory and practice of counseling psychology, who are competent consumers and creative producers of social science research, who are competent in counseling practice, and who are ethical and sensitive to the cultures, values, and worlds of various clients. Viewing research and practice as interdependent and mutually supporting, the MA in Counseling Psychology is based on the scientist-practitioner training model.
