

Test Preparation

The Language Center offers crash courses to prepare prospective and current students for IELTS and TOEFL tests.

The crash courses aim at familiarizing you with the most current test format and supporting you in developing appropriate test-taking strategies so that you can apply your language skills as effectively as possible in the test situation.

Crash courses can be arranged individually for prospective students. Depending on your needs, we recommend up to 20 hours of test preparation.

Please contact us at [Language.Center\[at\]webster.ac.at](mailto:Language.Center@webster.ac.at) for any inquiries about the crash courses.
